### **DentalEZ<sup>®</sup> Group Incorporates Larger Tanks for its CustomAir<sup>®</sup> by RAMVAC<sup>®</sup> 1027D & 1029T Compressors**

**Malvern, PA (February 19, 2010)** – DentalEZ<sup>®</sup> Group, a supplier of innovative products and services for dental health professionals worldwide, recently implemented larger holding tanks for its CustomAir<sup>®</sup> by RAMVAC<sup>®</sup> 1027D and 1029T compressors.

The 1027D 10-gallon model will be discontinued and replaced by the new 1027D20, which will house a standard 20 gallon holding tank.

The 1029T 10-gallon model will be discontinued and replaced by the new 1029T30. The new 1029T30 will now have a standard 30 gallon holding tank. The 1029T30 is now also equipped with a horizontal mount, instead of the classic “pyramid” layout, which will allow for an optional sound cover.

The larger tanks on the CustomAir<sup>®</sup> by RAMVAC<sup>®</sup> models will further increase the products’ longevity by decreasing run time and maximizing the work load. There are no changes made to the electrical characteristics, warranty, or features of the models, and no increase in price for the new larger tank models.

DentalEZ also offers a 20 gallon tank option for the 1025D, which comes standard with a 10 gallon tank. To order a 1025D with a 20 gallon tank, customers should use part number 1025D20. There will be a 3% up-charge for the larger tank, if requested.

For more information regarding RAMVAC & CustomAir products, please contact your DentalEZ sales representative, call 866-DTE-INFO, or log on to [www.dentalez.com](http://www.dentalez.com).
